

# Been burned by bad consulting advice?

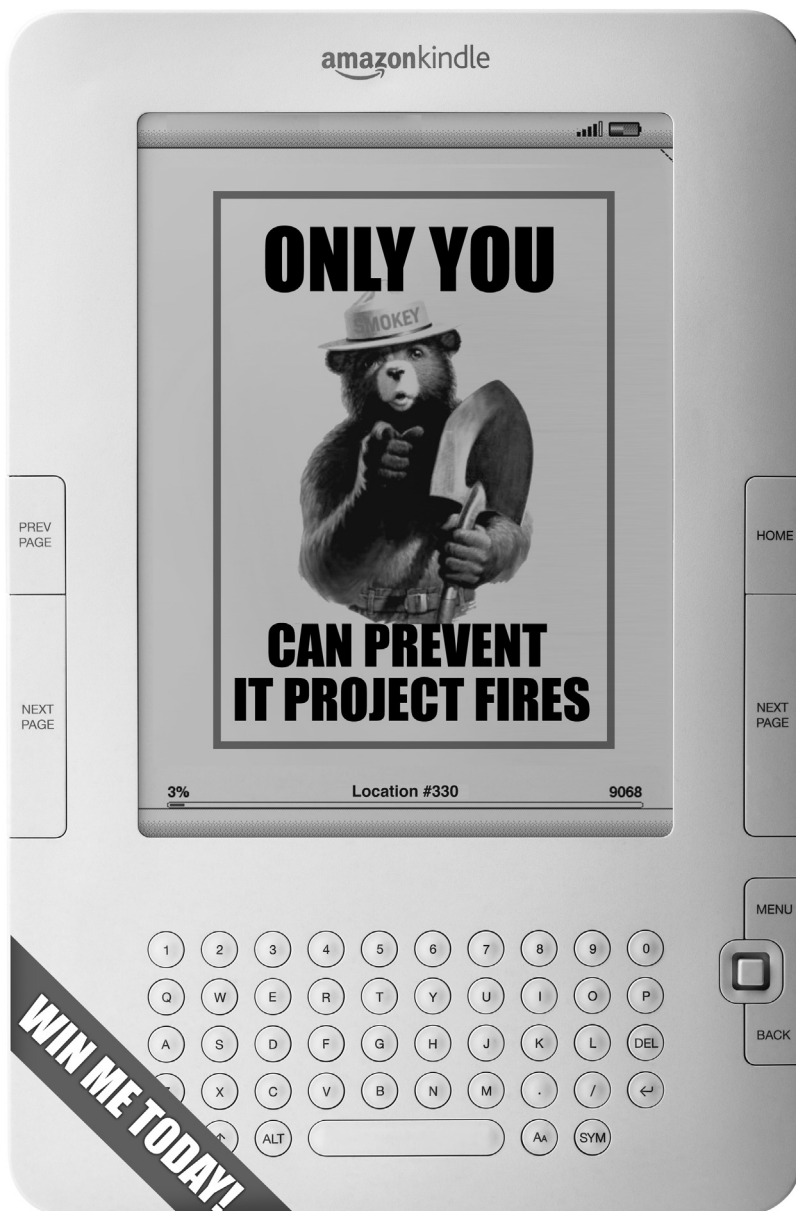

## We want to hear your story...

Come see us at booth **330** and tell us your worst IT consulting services horror story. If yours is one of the scariest tales we hear this week in Orlando, you'll win one of three Amazon Kindles that we're giving away!

While you're there, we'd love to show you how we keep these kinds of project nightmares from happening on our SAP HR engagements. There is a reason why AspireHR is the largest SAP partner in the United States focused exclusively on the unique needs of the HR marketplace.

By choosing the right services partner, **ONLY YOU** can prevent an IT project fire.

Just think, with AspireHR and your new Amazon Kindle you'll be able to replace your old scary story with a heroic success story!

The best human capital technology firm in the world!

HR Passion. SAP Specialists.
